

## English for Health Care Professionals

8 weeks or 12 weeks (22.5 hours/ week)  
 Minimum Level Requirement: Intermediate 6

**English For Health Care Professionals** is designed for students who are working in or plan to work in an English-speaking health care environment. Doctors, nurses, lab technicians, and other medical professionals benefit from learning the general English language and communication skills for their field.

English for Health Care Professionals teaches students the language skills and vocabulary needed in health care and the workplace. The course covers speaking, listening, and reading on a wide range of topics— from technical skills to ethical concerns, from communicating with patients to discussing issues with colleagues. The program includes: Health Care Studies, Job Skills and Medical Terminology classes to improve fluency and proficiency.
